“ In compiling the History of Palatine Lodge No 97, I am actuated solely by the desire to impart the knowledge which it has been my privilege to acquire, to the Worshipful Master, Wardens and Brethren of my Mother Lodge, whom I particularly request to see that it is regularly transferred to the custody of each successive Worshipful Master on his Installation Day. After much deliberating as to the Plan to be adopted, Chronological or Analytical. I chose the latter, as being the better course calculated to portray a fuller conception of the whole, by focussing in detail, it's several dependent parts. In pursuance of this decision I have thereby been enabled to fulfil this Task in well defined sections, chronologically developed, and strictly in the compass of the Lodge Records, besides expatiating on such subjects as: --

'Ancients and Moderns'
and paying tribute to the careers of certain exemplary characters.
